EDUCATION

Jain Deemed-to-be University, Bangalore

B.Tech in Computer Science Engineering (2024 – 2028) | CGPA: 9.3

TECHNICAL SKILLS

Programming Languages: Python, Java

Web Technologies: HTML, CSS, JavaScript

Frameworks: Flask, Django

Tools & Platforms: Git, GitHub, VS Code, Linux (Ubuntu)

Databases: MySQL

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, REST APIs, Backend Development

PROJECTS

Alarm Clock Application | Python, Flask

- Developed a desktop-based alarm application with real-time clock display and time formatting.
- Implemented multi-threading to ensure smooth UI performance without blocking execution.
- Designed features such as alarm scheduling, snooze functionality, and real-time updates.

Calculator Web Application | HTML, CSS, JavaScript

- Built a responsive calculator supporting arithmetic operations and keyboard input.
- Handled edge cases such as division by zero and chained calculations.
- Ensured cross-device compatibility for seamless user experience.

Library Management System | MySQL, PHP

- Designed a database-driven system to manage book inventory and user records.
- Implemented authentication and role-based access for secure operations.
- Automated issue/return workflow with fine calculation and reporting features.
- Enabled search functionality and generated reports on usage trends.

Heart Rate Monitoring System | MATLAB

- Processed ECG/PPG signals using digital filters (Butterworth, bandpass) to remove noise.
- Implemented Pan-Tompkins algorithm for accurate R-peak detection and BPM calculation.
- Visualized real-time signals using MATLAB GUI for monitoring cardiac activity.
- Detected anomalies like bradycardia and tachycardia with automated alerts.

INTERNSHIP / EXPERIENCE

Pinnacle Labs (2026)

Python Web Development Intern

Technologies: Python, Django/Flask, HTML, CSS

- Developed backend features using Django/Flask frameworks.
- Designed and implemented RESTful APIs for efficient client-server communication.
- Wrote clean, modular, and reusable code following best practices.
- Collaborated with team members to debug issues and deliver features on schedule.
